

Solution › OSS+

OSS+

Smooth tax reporting for eCommerce
merchants via the European Union
One-Stop Shop (OSS)

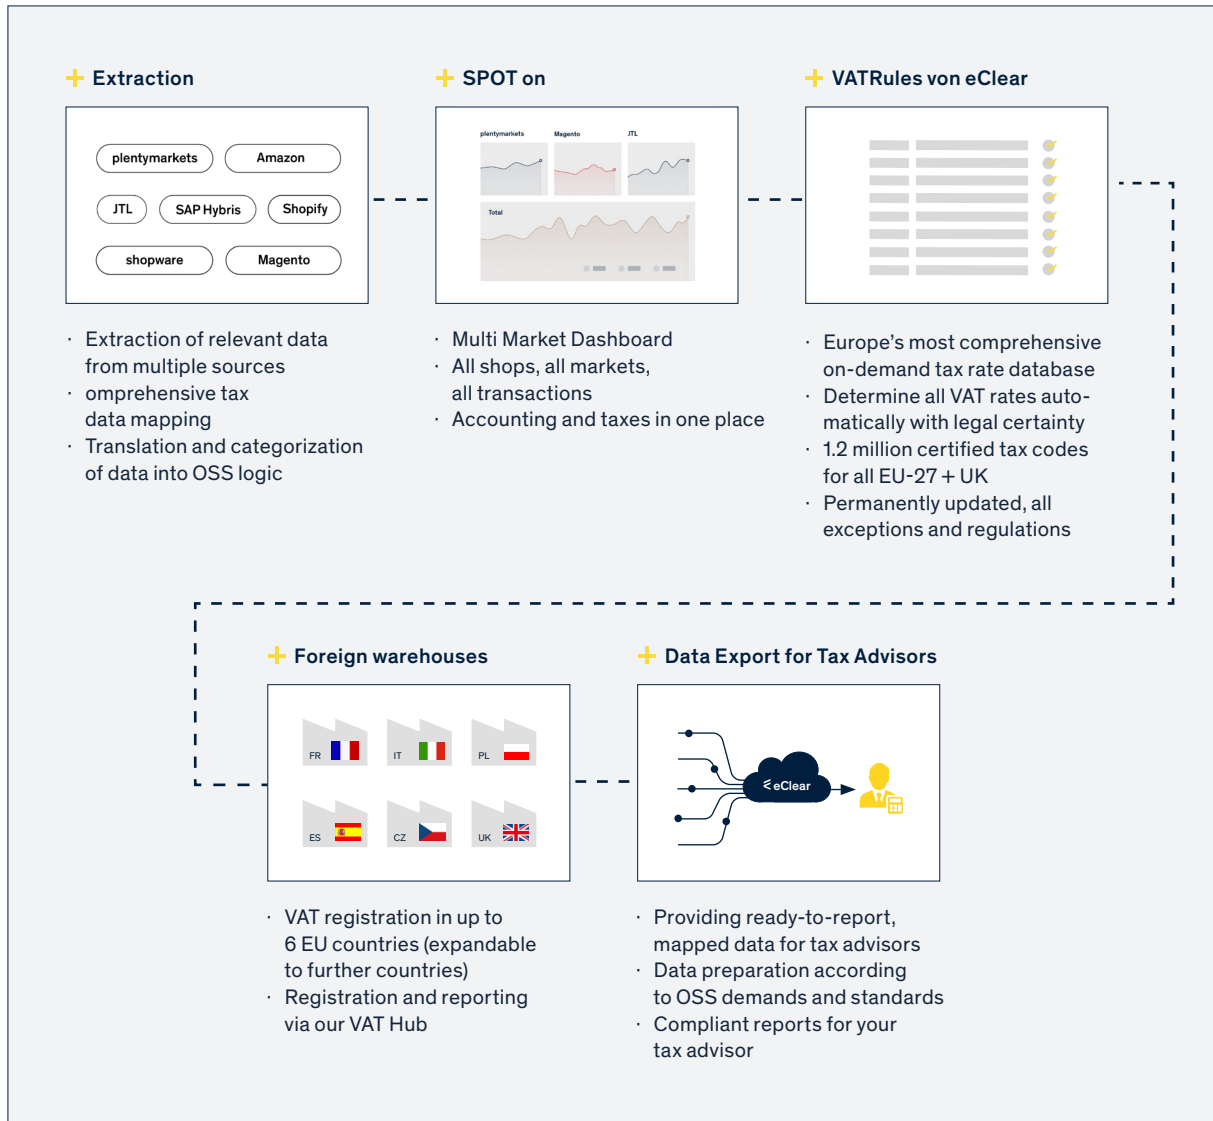

OSS+

The comprehensive solution for your OSS connection

OSS+ takes care of the cloud-based extraction and mapping of your VAT-relevant data from various marketplaces and shops. OSS+ handles the preparation of the declaration for your tax advisor, so he can easily process it for the One-Stop Shop (OSS).

Your connection to the OSS

Customer reference

„You need the right EU tax rates – otherwise you will lose track and a lot of money. OSS+ includes VATRules. We also booked the FBA package for our foreign warehouses. Mapping, calculation, reporting – it's all there. That makes daily business much more manageable.“

Martin Walter,
Managing Director Woldoshop GmbH

The overarching solution for e-commerce merchants

- + Tax-compliant application of the current VAT rates for all cross-border B2C transactions in the EU 27 (plus the UK)
- + SPOT, one multi-market dashboard with all your shops, transactions and taxes in one place
- + Smart extraction of your VAT relevant data from different sources (e.g. market-places, shop systems) as well as their preparation and processing
- + Plugins for ERP systems (integration for SAP R3/S4) available
