ClearVAT

VAT-free delivery – Cross-border B2C in
28 European countries

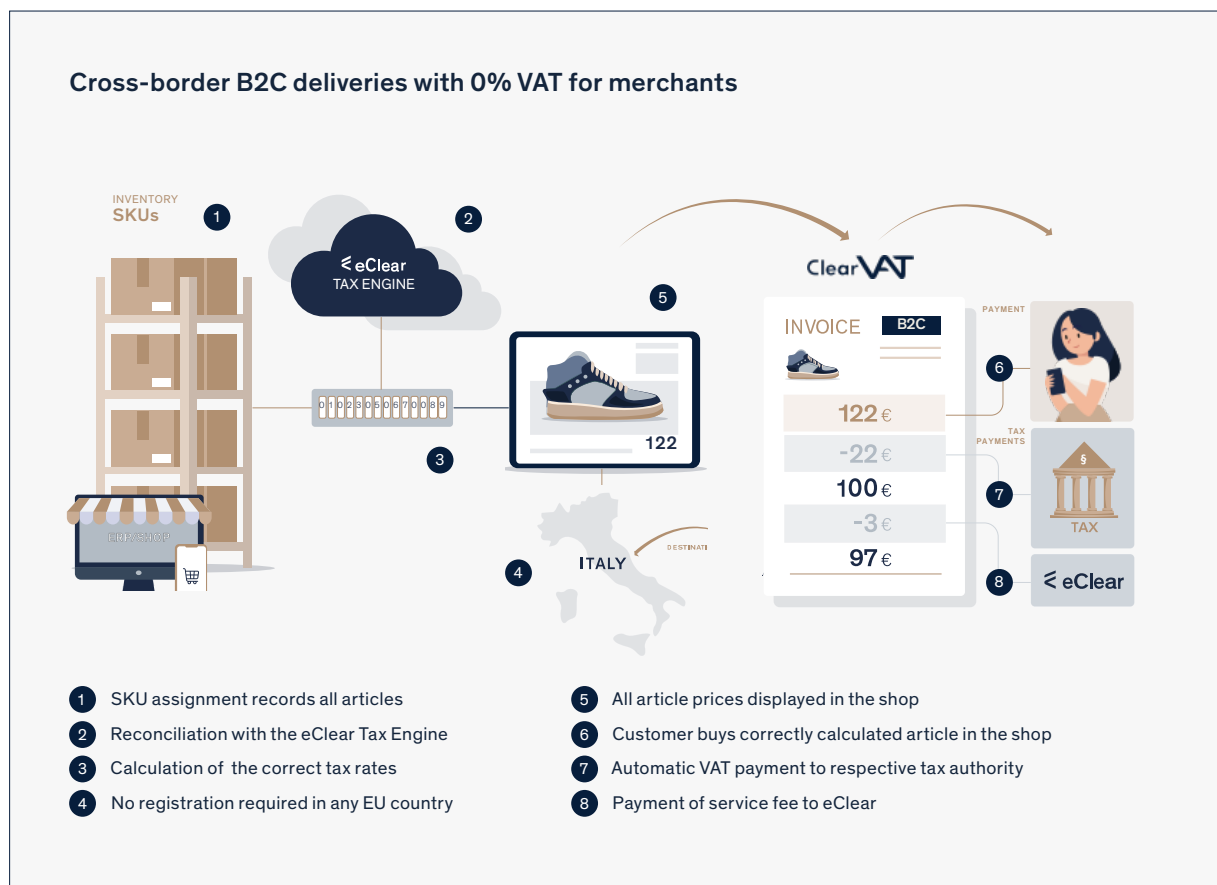

Cross-border e-commerce with ClearVAT

Rapid expansion into European markets, portfolio development, scaling, efficiency gains, outsourcing of VAT risks and declaration obligations: ClearVAT makes your B2C sales VAT-free in all EU 27 and the UK.

VAT 0% – How ClearVAT works

The country of destination principle applies to cross-border B2C sales of goods. Merchants are required to calculate and report VAT according to the regulations applicable in the respective country of the recipient and pay the amount due to the tax authorities there. With ClearVAT, eClear manages all these obligations. For merchants, cross-border B2C sales within the EU (and the UK) are completely VAT-free.
