Interface Certification: Test Report

SAP COMMERCE-CLOUD-EXT 1.0
SAP Commerce Cloud Extension Certification

Interface Certification: 19043

SAP Interface Name incl. Release	COMMERCE-CLOUD-EXT 1.0
SAP Commerce Release used for Test	SAP Commerce 2011

Name of Vendor	eClear AG
Vendor Number	1713168
Vendor Product Name & Release	eClear 1.0
Language Version Tested	English
Certification Date	July 29, 2021
Expiration Date	July 29, 2024
Location	remote
Person Present - Vendor	Rohit Goyal
Person Present - SAP	David Thirakul

Certified Functions:

☒ **Deploy extension package**
☒ **Validate server builds and runs**
☒ **Execute Functional steps**
☒ **Logging and error handling**

1. PRODUCT INFORMATION

Product Information	
Product web page:	eclear.com
Technical support contact information	rgo@eclear.com

2. PRODUCT OVERVIEW

Supported Functions and Business Processes	
General description of the product, the functionality and the purpose of the 3rd party product.	eClear is a "One Stop Shop" (OSS) on EU-VAT providing fully automated VAT clearing on EU B2C cross-border eCommerce and retail sales. It provides services to the merchants to allow them to sell in all member countries of EU: • Tax computation complying in scores of member countries in compliance with thousands of exceptions/rules in their respective jurisdictions • Tax collection from consumers from the eCommerce sites with multiple EU payment methods • Tax reconciliation with fully automated transaction matching of all payments including advances, bank debt, bill purchase • Tax payments in the member states without requiring merchants to register in each of them, with full compliance in each jurisdiction All of the above services are delivered by eClear from back-end via a VAT engine integrated in merchant's eCommerce systems using eClear supplied plugins.

3. TECHNICAL OVERVIEW

Architecture	
Overview of the technical integration and architecture of the 3rd party product.	Custom extensions have been created to develop the plugin which will be called in all the stages of a flow to get the updated price of a product from eClear taxation platform. eclearcore , eclearbackoffice , eclearinitialdata are the three custom extension which has been created by using the hybris extension types, through this extensions eClear taxation engine has been called for the updated price of the product. In all the stages of order flow from PLP page to order confirmation page, custom extensions service will be called to get the updated price of a product.

Description of extension package

4. TECHNICAL REQUIREMENTS

Extension	
Extension is built for SAP Commerce	OK
Extension is fully tested and generally available	OK
Extensions is built on top of a transactional DB	OK

Extension Deployment	
Extension packaging	OK
Extension installation	OK
System builds	OK
System runs	OK
System logs	OK

5. FUNCTIONAL TEST CASES

Functional Test Cases Executed	
1 Product upload	OK
2 eClear Import Utility	OK
3 Order Update	OK
4 Payment Modes	OK

Application Interface Key (AIR key)	
Implement AIR Key	☐ Yes ☒ N/A 　　Comments: Not appllicable as solution not leveraging SAP APIs/web services
AIR Key Value	a9mq7rdz

6. VENDOR CONFIRMATION

Vendor confirms that the product under test follows the instructions in the Test Plan document. Vendor has affirmed that the information provided to SAP in the accompanying Technical Product Profile document is complete and accurate.

This SAP Certification is only valid for the SAP release and vendor product release noted in this document; in the event that SAP component or third-party product release changes SAP offers re-certification service.
